

THE IMPROVED MONITOR Self-Heating Sad Iron . .

USES GASOLINE.

The tank in front of the iron is filled with gasoline which is generated into gas to supply the burner. The burner extends the full length of the iron, thus giving the entire bottom an equal temperature. The heat is regulated by a valve at rear of generator. An ordinary ironing can be done at an expense of about one cent.

THE Swing Flat Iron and Heater.

Uses Natural or Artificial Gas.

The heater is fastened to the ironing board with a clamp screw, and then connection is made with gas hose or pipe.

The burner is run into the iron and the iron is then turned upside down, the heat being concentrated upon the inner bottom of the iron.

Furnished in sets of two irons with heater and a grid which may be placed upon the heater and used as an ordinary stove burner for light housekeeping or sick room.

The smoothing surfaces of these irons are never marred by coming in contact with flames or stoves.

NEW ORDERS

SIGNED BY MANAGER DIMMOCK
OF THE CANTON-AKRON

Several Changes in the Running Service and Pass System Are Noticed—Special For New Berlin Patrons.

A number of new orders signed by Manager Dimmock have and will go into effect in the near future. The last car leaving Canton for Akron will leave Canton at 11:05. This car will not return but be kept at Akron over night. The car leaving Canton for Akron at 10:05 has been pulled off, the order going into effect Jan. 2. The last car leaving Akron for Canton will leave Akron at 11 o'clock; the car formerly leaving at 10:40 holding over until 11 o'clock. Thus the last two cars of the day leaving Canton for Akron, leave Canton at 9:05 and 11:05, and the last two cars leaving Akron for Canton leave Akron at 9:40 and 11 o'clock. As a result two cars have been pulled off; one leaving Canton for Akron at 10:05 and one leaving Akron for Canton at 11:40. Officials state that this system of removing late cars at this time are adopted by other systems and that this method will be in vogue in this city also over the C-A lines.

As traffic is heavy on Saturday nights for the 10 o'clock car, mostly by people from New Berlin, a special car will be run Saturday night at 10:05 to Berlin only. As a regular south bound car is due at Berlin at the time of the arrival of the 10:05 north bound car the special will head back to Canton following the regular.

In regard to the new passes which will be given and to go into effect Jan. 6, men employed on the Canton lines will have passes which will entitle them to transportation locally. But in order to ride on the interurban lines they must secure at the C-A office a special trip pass. Interurban employees will be entitled to transportation over the city lines by passes, but must also secure special passes for trips over interurban lines. Policemen, firemen and mail carriers will as usual ride free when in full uniform only.

All tickets and transfers taken up by the conductors will have to be cancelled as near to the center as possible or they will be given a little lecture on the side.

Among the bulletins also appear a few from the Northern Ohio Traction company. These will affect only interurban men of the C-A. Company who run the large interurban cars from East Akron, which is the limit of the C-A lines over the lines operated by the Northern Ohio Traction company into the center of Akron. As employees of the C-A lines do not read the bulletins of the N. O. T. they are for their benefit posted at the local C-A ticket office, as employees of the C-A company are compelled to conform to the laws and regulations set forth by the N. O. T. company when operating cars from East Akron into Akron over the N. O. T. company's lines. They are as follows: Instead of signing up for the work on the first run in the morning they are compelled to do this upon the last run at night. Indelible pencils are to be used in making out register cards. No erasing must be done, but if a wrong number is made, the mistake must be crossed out and the proper figures made anew.

A large rotary at the power house on West Tuscarawas street was burned out Tuesday morning which disabled the Canton & New Philadelphia cars for one trip. Otherwise everything is in good condition.

HOPE NOT GONE

Patrick Appeals to Governor Higgins for Another Chance.

Albany, N. Y., Jan. 3.—Although the date set for his execution is only three weeks distant, Albert T. Patrick, convicted of the murder of the aged millionaire Rice, has not lost heart. This afternoon he sent to Governor Higgins, the attorneys whom he has engaged to look after his case, and asked him to grant a respite to enable them to examine the pages of testimony taken in Patrick's case, on the chance that they may find something upon which to base an appeal to the supreme court of the United States. They told the governor that the time between now and the week of January 21, which is fixed for Patrick's execution was entirely too short to enable them to search this voluminous record.

Governor Higgins seemed favorably disposed toward the request, but told the attorneys he could not give his answer until he had had time to think the matter over.

LOOT SAFE OF \$900

Youngstown, O., Jan. 3.—Burglars wrecked the safe in the office of the Ohio Iron & Steel Co. early Wednesday and stole the pay envelopes of the men, containing \$900, and three watches. The burglars broke into a P. & L. E. storehouse and secured the tools they used to break into the office.

Failure at Pittsburg.

Pittsburg, Pa., Jan. 3.—The Landau department store on Market street filed a petition in bankruptcy in the United States district court today. The liabilities are \$27,872 and assets \$17,000. Most of the creditors are New York or Philadelphia wholesale dealers in drygoods and clothing.

PHILIPPINE TARIFF

WILL BE THE FIRST MATTER TO
CLAIM ATTENTION

Is Expected to Pass Next Tuesday
Without Amendment—Beet Sugar
Men Hold Conference.

Washington, Jan. 3.—Both branches of congress will convene at noon tomorrow, after a holiday recess of two weeks. The leaders of the house have decided that the Philippine tariff bill shall be first considered when the legislative business is resumed tomorrow. It will be reported without any rule to limit debate and amendments may be offered ad libitum. It had been the intention to start tomorrow with the statehood bill, but Mr. Hamilton, chairman of the committee, is not quite ready to report that measure. He will probably present it on Monday. There will be a rule limiting debate and precluding amendments. The Philippine bill will be temporarily put aside, and the attention of the house will be devoted exclusively to the statehood bill. The program is to pass it on Tuesday. Debate on it will be run indefinitely. The Republicans will permit the Democrats to offer as many amendments as they wish unless they aim at a general tariff revision. Amendments of free hides, steel or other articles will not, however, be accepted. According to the dictum of the leaders the bill will finally pass without amendment.

The beet sugar interests in the house had a conference today in the room of Representative Mondell, of Wyoming, for the purpose of outlining plans to be pursued against the cutting of the duty on sugar.

Present prospects point to brief sessions of the senate this week. Senator Gallinger has prepared a speech in advocacy of the ship subsidy bill, and he may take the floor at 2 o'clock tomorrow or Friday. An agreement may be reached, however, to adjourn over until Monday.

A meeting of the senate committee on interstate commerce has been called for Friday to consider railroad rate legislation. Chairman Elkins hopes to have the bill he is preparing in shape to submit.

ROBBER SHOT DOWN

Uhrichsville, O., Jan. 3.—Albino Fondriest, while robbing Greenlee's store was shot twice by Patrolman Wm. Randall Wednesday and is dangerously wounded. The man continued to run and was captured only after liberal use of the mace.

Canal Laborers From Spain.

Washington, Jan. 3.—One thousand laborers, natives of northern Spain, are to be employed by the isthmian canal commission in the construction work of the canal as an experiment.

BRIDGE WORTHLESS

Declares Summit County Contractor.
Suit May Be Brought.

Akron, Jan. 3.—Attorney R. M. Wanamaker, acting for Frank Miller, contractor of Cincinnati, has given formal notice to Prosecutor Hagelbarger to bring proceedings against the county commissioners, Treasurer Smith, and Auditor Buckman to restrain the payment of \$910 to the King Bridge Co., of Canton, for building a bridge, known as the John Daily bridge on the Canal Fulton and Manchester road.

The claim is made that the amount is excessive; that the bridge is useless to the county, and that the contract was illegally let.

Miller says that the bridge was imperfectly and carelessly constructed and is now in process of decomposition by reason of the poor material used. He claims that although the bill of the King Bridge company is for \$910 the cost of a first class bridge for that point would not exceed \$350. He says that the present bridge is of no value to the county.

CRANK MAKES THREATS

Will Do Something That Will Make
the World Shudder.

Washington, Jan. 3.—"If something is not accomplished in 15 days," said Paul Frederick, a crank who called at the White House today, "I'll do something that will make the world shudder."

He was locked up and later sent to the St. Elizabeth's hospital for the insane. While at the White House he told the police that he had a suit against the Morris Run Coal company for \$2,900,000 and thought the president might be able to get him his money. Later he told the police surgeons that the money was due his son for services in the war with Spain.

Frederick was here last June and went to the White House to have the president assist him in his troubles with his landlord. His condition today appeared more serious than upon the prior occasion.

OFFICERS INSTALLED

By Lily Lodge, Knights of Pythias,

CLEVELAND MAN

Sue's the Pennsylvania for Damages
as Result of the Harris-
burg Wreck.

Pittsburg, Pa., Jan. 3.—An echo of the Harrisburg wreck of May, 1903, came to the front today in the United States district court when Berkeley Ward of New York and H. Prescott Simpson of Cleveland, entered suits to recover damages aggregating \$75,000 from the Pennsylvania railroad company for injuries received in the wreck. Ward assess \$50,000 and Simpson \$25,000, both men claiming to have received permanent injuries in the wreck.

Permits to Wed.
